

**Email from Tammy Moyer, Director of Administration,
Lancaster County Prison:**

During the epidemic we are trying to limit traffic coming into the jail for obvious reasons. We have made video conferencing available for attorney visits and the system has worked quite well. There is still a small handful of attorneys that continue to come into the facility and they have been escorted on to the housing area to see clients.

However, in a continued effort to eliminate the spread of the virus, we now ask that all visits be scheduled through our Records Department so that video conferencing can be used.

Lt Brian Secor and Sgt Jennifer Wingler are in charge of the video schedule and are glad to assist in setting up the call and getting the inmate in front of the screen. If there are questions, please use the contact information below.

*Private Attorneys must set up their conferences with Court Administration first prior to reaching out to the prison.
